

Question #92

The photograph below is that of a box which apparently has three black circular areas on its front side.

One of the black spots is a hole, one is a piece of black construction paper, and one is a piece of black felt. The question this week is which one is the hole, and why. For the record, the inside of the box is painted black.

In the photograph above, the hole is:

- (a) at the left.
- (b) in the center.
- (c) at the right.
